

PROVIDING A VOICE FOR PATIENTS WORLDWIDE

**FACITtrans**  
**Certified Translation**

This is to certify that the Geriatric Assessment Patient Questionnaire and the Geriatric Assessment Healthcare Provider Questionnaire were translated from English to Armenian by qualified translators under contract to this institution. All translation steps are documented in the Armenian Item History which is available upon request. After the translation phase was completed, the Geriatric Assessment Patient Questionnaire was linguistically validated by testing with participants to confirm the suitability of the translations for Armenian patients. All translation work was performed by members of the Armenian translation team to the best of their abilities as natives of Armenian and as translators and researchers experienced in the field of health-related quality of life survey research under the direction of the undersigned. The translations are, to the best of my knowledge, accurate translations of the corresponding original documents.

Name: Benjamin J. Arnold, M.A.

Title: Director, FACITtrans
