

PROVIDING A VOICE FOR PATIENTS WORLDWIDE

**FACITtrans**  
**Certified Translation**

This is to certify that the Patient Questionnaire and the Healthcare Provider Geriatric Assessment Questionnaire were translated from English to universal Spanish by qualified translators under contract to this institution. All translation steps are documented in the Spanish Item History which is available upon request. After the translation phase was completed, the Patient Questionnaire was linguistically validated by testing with patients to confirm the suitability of the translations for Spanish-speaking patients. All translation work was performed by members of the Spanish translation team to the best of their abilities as native speakers of Spanish and as translators and researchers experienced in the field of health-related quality of life survey research under the direction of the undersigned. The translations are, to the best of my knowledge, accurate translations of the corresponding original documents.

Name: Benjamin J. Arnold, M.A.

Title: Director, FACITtrans
