

PROVIDING A VOICE FOR PATIENTS WORLDWIDE

FACITtrans
Certified Translation

This is to certify that the Geriatric Assessment Patient Questionnaire was translated from English to universal French by qualified translators under contract to this institution. All translation steps are documented in the French Item History which is available upon request. After the translation phase was completed, the Geriatric Assessment Patient Questionnaire was linguistically validated by testing with participants to confirm the suitability of the translations for French-speaking patients. All translation work was performed by members of the universal French translation team to the best of their abilities as native speakers and as translators and researchers experienced in the field of health-related quality of life survey research under the direction of the undersigned. This translation is, to the best of my knowledge, a valid and accurate translation of the corresponding original document.

Name: Benjamin J. Arnold, M.A.

Title: Director, FACITtrans
