

PROVIDING A VOICE FOR PATIENTS WORLDWIDE

## FACITtrans Certified Translation

This is to certify that the Geriatric Assessment Patient Questionnaire and Healthcare Professional Questionnaire was translated from English to Arabic by qualified translators under contract to this institution. All translation steps are documented in the Arabic Item History which is available upon request. After the translation phase was completed, the Geriatric Assessment Patient Questionnaire was linguistically validated by testing with participants to confirm the suitability of the translations for Arabic patients. All translation work was performed by members of the Arabic translation team to the best of their abilities as natives of Arabic and as translators and researchers experienced in the field of health-related quality of life survey research under the direction of the undersigned. The translations are, to the best of my knowledge, accurate translations of the corresponding original documents.

Name: Benjamin J. Arnold, M.A.

Title: Director, FACITtrans
